THE ORIGINAL MULCH MASTERSM

Natural straw mulch for home gardeners and professionals

Iron Will Farm, Inc.TM mission is to support professional and DIY landscapers and gardeners with high quality, cost-effective, and easy to use mulch products. Our proprietary production process shreds straw and hay into easy to apply, dust, chemical and clump-free material that spreads quickly, promotes germination and enriches the soil with organic compounds. All ingredients are 100% natural and biodegradable with straw approved for organic gardening by the Organic Materials Review Institute OMRI.org.

EcoSCAPE SUPPLY CO.™

THE ORIGINAL MULCH MASTERSM

Over 20 years ago, The Original Mulch Master developed a proprietary process to shred organic straw and hay into unique blends of mulch for the home gardener and professional landscaper. The Original Mulch Master is made from 100% natural, biodegradable and organic straw ingredients.

THE ORIGINAL MULCH MASTERSM SHREDDED STRAW

An extremely clean organic material produced from the stem residue of cultivated small grain crops after the seed head has been harvested.

THE ORIGINAL MULCH MASTERSM SHREDDED HAY/STRAW BLEND

This product is similar to the Shredded Straw, except that it may contain up to 35% forage grasses.

Each bag contains up to 3.5 cubic feet of compressed mulch that expands up to 4 times when opened to cover up to 800 sq. ft. Our premium bag is designed for long-term storage, both indoors and out, and is UV resistant, durable and recyclable.
